INDEX TO VOLUME XLVI, 1934

PAGE

Aeronautical Engineering, Training and Research in (Note) 527
Aircraft Carriers (Note) 272
Air Policy, Britain's (Note) 270
Air Ships, Mechanical Handling of (Note) 407
Alternating Current Motors and Generators, Part 3—Generators, Trend in Naval Engineering, by C. Huey 70
Arcronograph, Discussion of the Evolution of, by G. C. Manning, Lt. Comdr. (CC), U. S. N., and Bela Ronay 510, 513
Arcronograph, Evolution of the. A New Instrument Which Inspects Welds, Classifies Welders and Grades Welding Electrodes, by Bela Ronay 285
Association Notes 139, 283, 415, 544
Batty, George, Controlled Directional Solidification 1
Batty, George, Controlled Directional Solidification, Part 2 299
Becker, A. E., Technical Aspects of Fuel Oil Supply Peculiar to the East Coast 165
Boiler, Johnson Naval Type (Note) 126
Book Review, Knots, Ties and Splices 543
Book Review, Riveting and Arc Welding in Ship Construction 541
Book Review, Venetian Ships and Shipbuilders of the Renaissance 413
Borgstrom, B., and R. D. Norton and O. I. Lewis, Fuel Oil Research at the Naval Research Laboratory 173
Brief Discussion of Practical Application of Metals in Naval Machinery Design, by Comdr. C. S. Gillette, U. S. N. 480
Brierly, R. C., Investigation of Cracked Fuel Oils at the Naval Boiler Laboratory 199
Briggs, C. W., and R. A. Gezelius, Pickling of Steel Castings 316
Britain's Air Policy (Note) 270
Can We Eliminate the Fire Hazard? (Note) 524
Carriers, Aircraft (Note) 272
Castings, Steel, Pickling of, by C. W. Briggs and R. A. Gezelius 316
Cavitation, Scoop, a Criterion for, by Henry F. Schmidt 352
Clutch, Hydraulic, Vulcan (Note) 122
Coal Versus Oil for the Navy (Note) 260
Commercial Markets in Foreign Ports, Fuel Oil Available in, by O. McCormick 169
Compasses, Navigational, Gyro Versus Magnetic, by C. Huey and C. E. Taylor 417

PAGE

Construction, Naval, in 1933 (Note) 114
Controlled Directional Solidification, by George Batty 1
Controlled Directional Solidification, Part 2, by George Batty 299
Cracked Fuel Oils, Investigation of, at the Naval Boiler Laboratory, by R. C. Brierly 199
Cracked Fuel Oils, Practical Considerations in Burning Cracked Fuel Oils, by Thorvald A. Solberg, Lt. Comdr., N. S. N. 469
Cracked Fuel Oils, Tendency of to Form Deposits in Fuel Oil Heaters, by Ralph R. Gurley and J. G. O'Neil 186
Crankshafts, Main Engine, Relative Elasticity of Modifications of, Experiments to Determine, by Wm. C. Stewart 31
Crew, Wm. H., Electromagnetic Waves 45
Cruisers, Present Day (Note) 278
Davis, H. F. D., Calibration and Operation of Tank Gages 61
Deposits in Fuel Oil Heaters, Tendency of Cracked Fuel Oils to Form, by Ralph R. Gurley and J. G. O'Neill 186
Destroyer, Full Scale Trials on (Note) 121
Development of Military Weapons Since the Civil War (Note) 530
Development of Naval Guns, Progress in the (Note) 139
Directional Solidification, Controlled, Part 1, by George Batty 1
Directional Solidification, Controlled, Part 2, by George Batty 299
Discussion, Evolution of the Arcronograph, Lt. Comdr. G. C. Manning (CC), U. S. N., and Bela Ronay 510, 513
Distribution System, Electrical Analysis of, by E. F. Seaman 496
E. H. P. Calculations, Reply to Discussions on Notes on, by Henry F. Schmidt, by H. A. Schade 110
E. H. P. Calculations, Further Discussions on Notes, by Henry F. Schmidt 107
Electrical Distribution System Analysis, by E. F. Seaman 496
Electric Arc Welding, Fundamentals of, by Bela Ronay 21
Electromagnetic Waves, by Wm. H. Crew 45
Engineer, The, and Modern Civilization (Note) 387
Evolution of the Arcronograph. A New Instrument Which Inspects Welds, Classifies Welders and Grades Welding Electrodes, by Bela Ronay 285
Feed Pump, Boiler, Single Stage, Parallel Operation of, Discussion of Lt. Comdr. Redfield's Paper on, by A. Peterson 254
Fire Hazard, Can We Eliminate (Note) 524
Follow-up Systems, An Elementary Discussion, by Lt. Comdr. Herbert M. Scull, U. S. N. 505
Foreign Ports, Fuel Oils Available in Commercial Markets in, by O. McCormick 169
Forgings, Steel, by P. E. McKinney 357
Fuel Oil Heaters, Tendency of Cracked Fuel Oils to Form Deposits in, by Ralph R. Gurley and J. G. O'Neill 186
Fuel Oil Investigation, Naval, Present, by James E. Hamilton 141

PAGE
Fuel Oil Manufacturing Process, by K. G. MacKenzie 149
Fuel Oil, Navy's Tentative Specifications for, Fiscal Year 1935, by F. M. McGeary 212
Fuel Oil, Place of in the Naval Organization, by James E. Hamilton 218
Fuel Oil Purchase, Limitations of Naval Method of, by H. J. Norton 145
Fuel Oil Research at the Naval Research Laboratory, by B. Borgstrom, R. D. Norton and O. I. Lewis 173
Fuel Oil Supply, Effect of Changing Refinery Technique on, by J. B. Rather 160
Fuel Oil Supply from the Gulf Coast Area, Technical Aspect of, by R. T. Goodwin 156
Fuel Oil Supply, Technical Aspects of, Peculiar to the East Coast, by A. E. Becker 165
Fuel Oil Supply, Technical Aspects of, Peculiar to the West Coast, by J. B. Terry 152
Fuel Oils Available in Commercial Markets in Foreign Ports, by O. McCormick 169
Fuel Oils, Cracked, Practical Considerations in Burning, by Thorvald A. Solberg, Lt. Comdr., U. S. N. 469
Fuel Oils, Cracked, Investigation of, at the Naval Boiler Laboratory, by R. C. Brierly 199
Fuel Oils, Cracked, Tendency of to Form Deposits in Fuel Oil Heaters, by Ralph R. Gurley and J. G. O'Neill 186
Full Scale Trials on a Destroyer (Note) 131
Gages, Tank, Calibration and Operation of, by H. F. D. Davis 61
Galbraith, William H., A New Idea in Pump Valve Gears 56
Gaskets and Steam Joints, High Pressure, by Ralph C. Kephart 100
Gears, Pump Valve, a New Idea in, by William H. Galbraith 56
Generators and Motors, Alternating Current, Part 3—Generators. Trend in Naval Engineering, by C. Huey 70
Gezelius, R. A., and C. W. Briggs, Pickling of Steel Castings 316
Gillette, C. S., Comdr., U. S. N., Brief Discussion of Practical Application of Metals in Naval Machinery Design 480
Goodwin, R. T., Technical Aspect of Fuel Oil Supply from the Gulf Area 156
Gun, Great, Problem (Note) 398
Gurley, Ralph R., and J. G. O'Neill, Tendency of Cracked Fuel Oils to Form Deposits in Fuel Oil Heaters 186
Gurley, Ralph R., Lieut., U. S. N., Proposed Method of Competing Weight Factors of Heat. Insulating Materials for Pipe Covering 451
Gyro Versus Magnetic, Navigational Compasses, by C. Huey and C. E. Taylor 417
Hamilton, James E., Present Naval Fuel Oil Investigation 141
Hamilton, James E., The Place of Fuel Oil in the Naval Organization 218
Handling of Air Ships, Mechanical (Note) 407
Here, There and Other Places (Note) 411

PAGE

Hersey, Mayo D., Notes on the History of Lubrication, Part II, Journal Bearing Experiments 369
High Pressure Steam Joints and Gaskets, by Ralph C. Kephart 100
History of Lubrication, Notes on, Part II, Journal Bearing Experiments, by Mayo D. Hersey 369
Huey, C., and C. E. Taylor, Navigational Compasses, Gyro Versus Magnetic 417
Huey, C., The Trend in Naval Engineering. Alternating Current Motors and Generators. Part 3—Generators 70
Hydraulic Clutch, Vulcan (Note) 122
Hydrogen, The New (Note) 280
Insulating Materials, Heat, for Pipe Covering, Proposed Method of Computing Weight Factor, by Lieut. Ralph R. Gurley, U. S. N. 451
Johnson Naval Type Boiler (Note) 126
Kephart, Ralph C., High Pressure Steam Joints and Gaskets 100
Launching of Big Ships (Note) 522
Launch of the Cunard-White Star Quadruple-Screw Liner *Queen Mary* (Note) 520
Lewis, O. I., and B. Borgstrom and R. D. Norton, Fuel Oil Research at the Naval Research Laboratory 173
Lubrication, Notes on History of, Part II, Journal Bearing Experiments, by Mayo D. Hersey 369
MacKenzie, K. G., The Fuel Oil Manufacturing Process 149
Main Engine Crankshafts, Experiments to Determine Relative Elasticity of Modifications of, by Wm. C. Stewart 31
Manning, G. C. (CC), Lt. Comdr., U. S. N., Discussion, Evolution of the Arcronograph 510
Manufacturing Process, Fuel Oil, by K. G. MacKenzie 149
Materials, Strength of (Note) 393
McCormick, O., Fuel Oils Available in Commercial Markets in Foreign Ports 169
McGeary, F. M., Navy's Tentative Specifications for Fuel Oil, Fiscal Year 1935 212
McKinney, P. E., Steel Forgings 357
Metals, Brief Discussion of Practical Application of, in Naval Machinery Design, by Comdr. C. S. Gillette, U. S. N. 480
Motors and Generators, Alternating Current. Part 3—Generators—Trend in Naval Engineering, by C. Huey 70
Naval Boiler Laboratory, Investigation of Cracked Fuel Oils at, by R. C. Brierly 199
Naval Engineering, Trend in, Alternating Current Motors and Generators, Part 3—Generators, by C. Huey 70
Naval Fuel Oil Investigation, Present, by James E. Hamilton 141
Naval Guns, Progress in the Development of (Note) 137
Naval Research Laboratory, Fuel Oil Research at, by B. Borgstrom, R. D. Norton and O. I. Lewis 173

PAGE

Navigational Compasses, Gyro Versus Magnetic, by C. Huey and C. E. Taylor 417
Navy's Tentative Specifications for Fuel Oil, Fiscal Year 1935, by F. M. McGeary 212
Norton, H. J., Limitations of the Naval Method of Fuel Oil Purchase 145
Norton, R. D., and B. Borgstrom and O. I. Lewis, Fuel Oil Research at the Naval Research Laboratory 173
Notes on the History of Lubrication, Part II, Journal Bearing Experiments, by Mayo D. Hersey 369
Oil, Naval Fuel, Present Investigation, by James E. Hamilton 141
Oil Versus Coal for the Navy (Note) 260
O'Neill, J. G., and Ralph R. Gurley; Tendency of Cracked Fuel Oils to Form Deposits in Fuel Oil Heaters 186
Parallel Operation of Single Stage Boiler Feed Pumps, Discussion of Lt. Comdr. Redfield's Paper on, by A. Peterson 254
Peterson, A., Discussion of Lt. Comdr. Redfield's Paper on Parallel Operation of Single Stage Boiler Feed Pumps 254
Pickling of Steel Castings, by C. W. Briggs and R. A. Gezelius 316
Planes, Soaring (Note) 400
Practical Considerations in Burning Cracked Fuel Oils, by Lt. Comdr. Thorvald A. Solberg, U. S. N. 469
Propellers, Immersion of (Note) 269
Proposed Method of Computing Weight Factors of Heat Insulating Materials for Pipe Covering, by Lieut. Ralph R. Gurley, U. S. N. 451
Pump, Boiler, Single Stage, Parallel Operation of, Discussion of Lt. Comdr. Redfield's Paper on, by A. Peterson 254
Pump Valve Gears, A New Idea in, by William H. Galbraith 56
Queen Mary, Launch of (Note) 520
Rather, J. B., Effect of Changing Refinery Technique on Fuel Oil Supply 160
Refinery Technique, Effect of Changing on Fuel Oil Supply on, by J. B. Rather 160
Research, Fuel Oil, at the Naval Research Laboratory, by B. Borgstrom, R. D. Norton and O. I. Lewis 173
Ronay, Bela, Discussion, Evolution of the Arcronograph 513
Ronay, Bela, Evolution of the Arcronograph. A New Instrument Which Inspects Welds, Classifies Welders and Grades Welding Electrodes 285
Ronay, Bela, Fundamentals of Electric Arc Welding 21
Schade, H. A., Discussions of Mr. H. F. Schmidt's Reply on, Notes on 110
Schmidt, Henry F., A Criterion for Scoop Cavitation 352
Schmidt, Henry F., Further Discussions on Notes on E. H. P. Calculations 107
Schmidt, Henry F., Reply to Lieut. H. A. Schade's Discussion on Paper, by H. F. Schmidt on Scoops 251
Scoop Cavitation, A Criterion for, by Henry F. Schmidt 352
Scoops, Reply to Discussion of Lieut. H. A. Schade on Paper of Henry F. Schmidt on Scoops, by Henry F. Schmidt 251

PAGE

Scull, Herbert M., Lt. Comdr., U. S. N., Follow-up Systems, An Elementary Discussion 505
Seaman, E. F., Electrical Distribution System Analysis, by E. F. Seaman 496
Single Stage Boiler Feed Pumps, Parallel Operation of, Discussion of Lt. Comdr. Redfield's Paper on, by A. Peterson 254
Soaring Planes (Note) 400
Solberg, Thorvald A., Lt. Comdr., U. S. N., Practical Considerations in Burning Cracked Fuel Oils 469
Solidification, Controlled Directional, by George Batty 1
Solidification, Controlled Directional, Part 2, by George Batty 299
Steam Joints and Gaskets, High Pressure, by Ralph C. Kephart 100
Steel Castings, Pickling of, by C. W. Briggs and R. A. Gezelius 316
Steel Forgings, by P. E. McKinney 357
Stewart, Wm. C., Experiments to Determine Relative Elasticity of Modifications of Main Engine Crankshafts 31
Specifications, Tentative, Navy, for Fuel Oil, Fiscal Year 1935, by F. M. McGeary 212
Strength of Materials (Note) 393
Tank Gages, Calibration and Operation of, by H. F. D. Davis 61
Taylor, C. E., and Huey, C., Navigational Compasses, Gyro Versus Magnetic 417
Technical Aspect of Fuel Oil Supply from the Gulf Coast Area, by R. T. Goodwin 156
Technical Aspects of Fuel Oil Supply Peculiar to the East Coast, by A. E. Becker 165
Technical Aspects of Fuel Oil Supply Peculiar to the West Coast, by J. B. Terry 152
Terry, J. B., Technical Aspects of Fuel Oil Supply Peculiar to the West Coast 152
Training and Research in Aeronautical Engineering (Note) 527
Trend in Naval Engineering. Alternating Current Motors and Generators, Part 3—Generators, by C. Huey 70
Trials on a Destroyer, Full Scale (Note) 131
Turbine, Steam, Vibrations (Note) 265
Valve Gears, Pump, A New Idea in, by William H. Galbraith 56
Vibrations, Steam Turbine (Note) 265
Visibility at Sea (Note) 136
Vulcan Hydraulic Clutch (Note) 122
Waves, Electromagnetic, by Wm. H. Crew 45
Weapons, Military, Development of, Since Civil War (Note) 530
Welding, Electric Arc, Fundamentals of, by Bela Ronay 21
Welding, Evolution of the Arcronograph. A New Instrument Which Inspects Welds, Classifies Welders and Grades Welding Electrodes, by Bela Ronay 285
Welds for High Pressure High Temperature Piping 539
